600A

600A

United Electronics Corporation's 600A power distribution panel (PDP) (P/N: 610-5004-0462) is designed for multiple generator or energy sources. The unit contains two (2) 200A, and two (2) 100A 3 phase input breakers with locking capabilities allowing for backup generator connection for quick source power transfer or for paralleling for multiple generator or energy sources with external synchronizing capabilities. Ideal for use in micro-grid applications.

The 600A is designed primarily for the paralleling of two 60kW, MEP 806 or two 30kW, MEP 805 tactical quiet generator sets.

Rating:

600A
3 Phase (H,H,H,N,G)
120/208Y VAC
50/60Hz

Inputs:

2) 200A, 3 Pole, 4 Wire, 120/208Y, MIL-DTL-22992 Qualified Plugs
(2) 100A, 3 Pole, 4 Wire, 120/208Y, MIL-DTL-22992 Qualified Plugs

Outputs:

(6) 100A, 100A, 3 Pole, 4 Wire, 120/208Y, MIL-DTL-22992 Qualified Receptacles. All Inputs protected with thermal magnetic circuit breakers with lockout option.

Ideal use for main, upstream power distribution for basecamps, hospitals, forward operating bases and other applications requiring multiple generator or energy sources.
